

## ASIAN WOMEN

We feel that as Asian lesbians, we have unique and special needs and concerns that no existant group has been able to meet. We'd like to develop some kind of network among women who recognize that we face specific challenges quite different from other Asian women and from other non-Asian lesbians.

Our hope is that we can form a group that you can and will use as a resource; for meeting others like yourself who are Asian women, who are lesbians, and who have interests in common with yours, be it softball, travelling, the need for a support group, going to the theatre, or who are in the same occupational field as yourself, so you can "talk shop", exchange information, and network with one another.

We hope to create among our members a sense of self-identity and pride as well as a sense of community.

We are cooperating with the Asian Womens' Mailing List and are affiliated with ALGA (Association of Lesbian and Gay Asians) but maintain our own policies.

\*\*\* USE OF THIS MAILING LIST  
IS RESTRICTED SOLELY TO THE  
PARTICIPANTS LISTED HEREIN.

In order to keep our list confidential, organizations wishing to utilize the list must provide "Asian Women" with the materials they wish to send, and we will provide the mailing service.
