It is almost a year.

I look up at see a picture of you + June that I took on your front lawn. Beneath it is another picture of Nitzzi, Donna you + me at the Oct 11 march. And I think of all the hundreds (Thousands probably) of links that June forged. All of them shine with the love and vividness of her personality.

I'm sending off 2 books for the June L. Meyer Library. I love her so much. I'm grateful and glad that you are my link to her. Glad because I love you just for yourself. As June would've said "☺"
